Part III DETAILED ACTION

1. This application is a continuation of 08/763,669 which claims benefit of provisional application 60/008,502.

2. Claims 1 and 4 are pending.

3. The request filed on 5-10-02 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/404,076 is acceptable and a CPA has been established. An action on the CPA follows.

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1 and 4 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant has no support for the phrase "which antibody binds to the same epitope on human leutinizing hormone beta cor fragment as an antibody produced by hybridoma cell line designated B505 (ATCC Accession No. HB-12000).

The Examiner reviewed where Applicant communicated they had support in the amendment filed on 12-10-01 but no written support could be found.

7. In claim 4 the word competitively is misspelled. Correction is required.
